We are resending this email because the previous link to our new analysis piece [‘Narratives that drive conflict: unpacking the term ‘settler and what it means in Darfur’](#) was incorrect. We apologise for the inconvenience and hope you find the research insightful.

Dear colleagues,

We hope you’ve had a good start to the new year. Despite the ongoing challenges in Sudan, we remain committed to supporting a conflict sensitive and locally led aid response in Sudan.

This Better Aid Update shares some of our initiatives from over the last months and introduces new products we’ve been working on which aim to help aid workers navigate this challenging context – including our newly launched [analysis unpacking the term ‘settler’ and what it means in Darfur](#), [a new blog on lessons from OLS and NMPACT for navigating humanitarian access](#), and our upcoming trainings on [conflict sensitivity](#), [conflict analysis](#) and the [Sudanese context](#).
